

Executive Profile

Dr. Charles M. Geschke
Chairman of the Board
Adobe Systems Incorporated

Dr. Charles Geschke co-founded Adobe in 1982 with Dr. John Warnock, driving technology innovations that forever transformed how people create, process and engage with information. A respected and inspiring industry leader, Geschke was instrumental in developing some of the software industry's most pioneering technologies.

Through his vision and passion, Geschke helped build Adobe from a start up into one of the world's largest software companies. In 2000, Geschke retired from his position as Adobe president. Today, he and John Warnock are co-chairman of Adobe's board of directors and continue to shape direction for the nearly \$3 billion company.

Geschke's outstanding technical and managerial achievements have been honored by industry and business leaders, including: the Association for Computing Machinery; Carnegie-Mellon University; the IEEE (Institute of Electrical and Electronics Engineers); the National Computer Graphics Association; and the Rochester Institute of Technology. In 2000, he was ranked as the seventh most influential graphics person of the last millennium by Graphic Exchange magazine. Geschke is a recipient of the John W. Gardner Leadership Award and the Entrepreneur of the Year from Ernst & Young, Merrill Lynch and Inc. Magazine. Geschke received the Medal of Achievement from the American Electronics Association in 2006. He and John Warnock are the first software leaders to receive this award.

Geschke is a member of the National Academy of Engineering and serves on the boards of several educational institutions, arts and non-profit organizations. He is on the board of trustees for the University of San Francisco and is a member of the computer science advisory board of Carnegie-Mellon University. He also serves on the boards of the San Francisco Symphony, the Commonwealth Club of California, the Egan Maritime Foundation, the National Leadership Roundtable on Church Management, the Nantucket Boys & Girls Club and Tableau Software.

Prior to co-founding Adobe, Geschke formed the Imaging Sciences Laboratory at Xerox Palo Alto Research Center where he directed research activities in the fields of computer science, graphics, image processing and optics. Previously, he was a principal scientist and researcher at Xerox PARC's Computer Sciences Laboratory.

Geschke holds a doctorate in computer science from Carnegie-Mellon University as well as a master's degree in mathematics and an A.B. in classics, both from Xavier University.

Adobe revolutionizes how the world engages with ideas and information – anytime, anywhere and through any medium. For more information, visit www.adobe.com.
